

# Limited Residential Contractor Licensing Course

***Are you interested in transitioning from construction worker to contractor? Possibly start your own business? Then consider this...***

30-hour course includes review of the license application process, the International Building Code, an introduction to TN construction laws, legal and financial issues, accounting practices, loans, liens and insurance.

Learn how to read blueprints, build to specifications, and adhere to codes and regulations.

Successful completion of course exempts students from taking the contractor licensing exam if they want to obtain the Limited Residential Contractor License (BC-Ar).
